

MARIO SÁNCHEZ

Mechanical Engineer

About me

Passionate about creating things from scratch and learning along the way. I've achieved strong academic results while gaining diverse experience as a waiter, tutor, volunteer, and lifeguard. These roles have enhanced my **adaptability**, **communication**, and **stress management** skills across various environments.

Education

Bachelor's Degree in Mechanical Engineering 2020-2024

University Miguel Hernandez **UMH** & University La laguna **ULL**.

Graduated with the **Best Academic Record** of the program.

- Two-time winner of the UMH **Bridge Competition**.
- **Final thesis:** Analytical Modeling of HVAC System Based on the
- Hybridization of Heat Pump and the **Maisotsenko Cycle**.

DISCOVER Master in Management & Data Analysis 2025-2026

University Camilo José Cela **UCJC** & Fundación Universidad-Empresa **FUE**

Experience

Trainee Maintenance Engineer - ODCO1 Airbus 2025-2026

Analyzed demoulding process data to reduce cycle time and breakdowns.

Developed predictive model to anticipate failures in Flow trimming tool actuators.

Delivered technical specifications and ensured alignment with external suppliers.

Automated document workflows and managed the team's intranet content.

Trainee Maintenance Engineer - UTE Netial 02-05/2024

Designed the comprehensive maintenance plan for the municipal street-cleaning fleet of Alicante.

Other roles: Waiter, Private Tutor, Lifeguard

Beyond Work

Passionate about body control and adventure sports like calisthenics, climbing, surfing, snowboarding, and diving. I'm also interested in nutrition and the fitness lifestyle. I enjoy crafting things by hand. In my free time, you'll find me watching science videos, reading books, or getting lost in anime.
